

GOLF RETAIL

High Definition Golf™ from Interactive Sports Technologies is the world's most amazing photo-realistic golf simulator. Advanced stereoscopic computer vision provides extremely accurate ball tracking and trajectory analysis. It is the only virtual golf system that looks absolutely real; like you are actually on the golf course. Play the world's finest golf courses, practice all types of shots with a wide selection of practice ranges, and compete in long drive and closest-to-pin contests. The system can also be used as a fully integrated club fitting/testing and instruction tool.

High Definition Golf™ provides a fully integrated solution for golf retail, professional instruction and club fitting facilities.

- Accurately measures ball speed, trajectory, swing path and club face contact
- Provides instant feedback on club path at impact indicating club angle, launch angle both vertically and horizontally
- Integrated with the IST launch monitor to gather detailed information on backspin, sidespin and trajectory for club fitting.
- Compare clubs, shafts, balls
- Significantly enhances club sales
- Swing analysis module allows capture of the entire golf swing from two different views enabling instructors to compare swing in freeze frame and slow motion.
- Instructors can replay the swing on the touch screen or the 9 X 12 simulator screen for student viewing
- On-screen promotion and advertising (apparel sales, equipment specials, in-store events and golf lessons).
- Screen is a special multi layer design that is ball mark resistant, won't rip or tear, controls ball rebound perfectly and has a natural sound dampening effect.
- Very easy use
- High reliability and virtually maintenance-free
- Attractive financing plans available
